

Community Speed Watch 2024

Due to personal circumstance some of the volunteers have had to take a back seat and are no longer active members of the speed watch teams.

However, there are two teams that are consistently out and about catching and recording errant drivers. These sessions highlight the need as they have been catching speeders who are exceeding 35 miles per hour anything from 0 to 7 speeders in any hour that they monitor.

A big thank you goes to

Phil Rothwell

John Beckett

Derek Sang

Ashley Minors

Jo Ryder

Steve Wigney

All drivers caught exceeding 35 mph are reported to the Community Speed Watch Officer at Norfolk Constabulary who will then take the appropriate action.

Community Speed Watch is not just about catching speeders but is there as a deterrent.
